

Diploma in **CONSTRUCTION ENGINEERING** (Part-time)

There is an increasing demand for knowledge-based skilled workforce as the industry restructures itself following the transition of our nation into a knowledge-based economy. A new generation of knowledge-based specialist subcontractors, supervisors or Resident Technical Officers who possess adequate practical skills and technical knowledge is needed. They will have the skills to supervise construction workers directly in this new economy to ensure that construction sites are safe, highly productive with good quality standards.

The Diploma in Construction Engineering is accepted for registration as a Resident Technical Officer under the Building Control Act.

PROGRAMME OBJECTIVES

This programme has been structured to equip students with the skills and knowledge to:

- keep abreast of the current construction technologies in the industry;
- perform and supervise the construction works on site effectively;
- plan and schedule construction works effectively to achieve high productivity and minimise delay;
- perform designs for steel, reinforced concrete, precast and prestressed concrete structures:
- manage the safety aspects of construction; and
- apply supervisory, managerial and financial know-how for business

ENTRY REQUIREMENTS

a) GCE 'O' LEVEL English (Grade 1 - 7); b) GCE 'O' LEVEL Mathematics (Grade 1 - 6); c) a relevant GCE 'O' LEVEL subject (Grade 1 - 7), and at least 3 years of relevant working

experience.

Workplace Literacy and Numeracy Level 6, and at least 3 years of relevant working experience.

OR

HIGHER NITEC / ITC or GCE 'N' LEVEL and NITEC/NTC 2 with minimum GPA of 2.75 in relevant disciplines, and at least 1 year relevant working experience.

OR

Any ONE of the following certificates with at least 3 years of relevant working experience:

 Advanced National Building Qualification (NBQ)

- National Certificate in Construction Supervision
- Certificate in Interior Finishing Coordination
- Certificate in Waterproofing Supervision
- Certificate in Precast Concrete Construction Supervision
- · Certificate in Building Measurement

AWARD OF CERTIFICATE

A participant must attain at least 75% of physical attendance and complete all assignments to acceptable standards to be eligible to take the examination at the end of the course. Students who pass all semester examinations and the four compulsory courses* will be awarded a Diploma in Construction Engineering and a certificate for successful completion of a course in ISO14001:2004 (Env), and OHSAS 18001:2007 (Health & Safety) and IQA on ISO9001:2008 (Quality).

- * Students taking the Diploma in Construction Engineering are also required to attend the following four compulsory
- Certificate in Levelling and Setting Out;
- Certificate in Precast Concrete Construction Supervision;
- Building Construction Supervisors Safety Course: and
- Certificate in Formwork Safety for Supervisors.

Students are required to enrol for these four compulsory courses separately and must complete them successfully within six years from the date of commencement for Year One Diploma programme.

COURSES

- Construction Materials
- Reinforced Concrete Construction
- Structural Mechanics
- · Construction Equipment
- Technical Drawings
- Mathematics 1
- Mathematics 2
- · Building Services
- · Life Skills A & B
- Basic Business Law
- Reinforced Concrete Design 1
- Structural Analysis
- Management Systems for Construction
- · Structural Detailing

- Building Measurement
- Procurement Management
- Project Management
- Management Skills A & B
- · BIM for Structure
- Advanced Concrete Technology
- Construction Technology
- Reinforced Concrete Design 2
- · Geotechnical Engineering
- Steel Design and Construction
- Structural Appraisal and Repair
- Precast and Prestressed Design & Construction
- **Technical Communications**

Diploma in **ELECTRICAL ENGINEERING & CLEAN ENERGY** (Part-time)

This programme aims to provide an upgrading path for working adults who aspire to obtain a BCA-accredited diploma in electrical engineering, and to expand their career opportunities in high-growth market segments such as clean energy, green building and energy management.

Besides equipping students with the fundamentals of electrical engineering, the programme incorporates a comprehensive treatment of cleantech subjects which includes clean energy generation, energy management, Green Mark assessment and building management systems.

PROGRAMME OBJECTIVES

The programme content has been structured to equip students with the fundamental knowledge and specialised skills necessary to assists engineers and managers in:

- designing, operating and maintaining electrical services for building
- performing and supervising effectively various electrical works on-site
- · conducting energy audits
- conserving and optimising energy usage in buildings

ENTRY REQUIREMENTS

a) GCE'O'LEVEL English (Grade 1 - 7); b) GCE'O'LEVEL Mathematics (Grade 1 - 6); c) a relevant GCE'O' LEVEL subject (Grade 1 - 7), and at least 3 years of relevant working experience.

UK

Workplace Literacy and Numeracy Level 6, and at least 3 years of relevant working experience.

OR

HIGHER NITEC / ITC or GCE'N' LEVEL and NITEC/NTC 2 with minimum GPA of 2.75 in relevant disciplines, and at least 1 year relevant working experience.

AWARD OF CERTIFICATE

A participant must attain at least 75% of physical attendance and complete all assignments to acceptable standards to be eligible to take the examination at the end of the course. Students who pass all semester examinations will be awarded a Diploma in Electrical Engineering and Clean Energy and a certificate for successful completion of a course in ISO14001:2004 (Env), and OHSAS 18001:2007 (Health & Safety) and IQA on ISO9001:2008 (Quality).

In addition, graduates will be awarded the following qualification:

 Singapore Certified Energy Manager (Associate)

COURSES

- Building Technology
- Electric Circuit Analysis 1
- Analogue Electronics
- Introduction to Electrical Power Systems
- Life Skills A & B
- Mathematics 1
- Technical Drawings
- · Procurement Management
- Clean Energy Technology
- Digital Electronics
- Mathematics 2
- Renewable Energy Conversion and Storage Systems
- ACMV Fundamentals
- · Project Management
- Management Skills A & B
- Embedded Systems
- Power Electronics
- Basic Engineering Mechanics
- · Green Building Technology
- Electric Circuit Analysis 2
- Electrical Power Distribution and Installation
- · Computer Programming
- · Electrical Machines
- · Basic Business Law

- CAD
- · Green Mark Manager
- Integrated Building Management Systems
- Design and Operation of PV Systems
- Modern Power Systems
- Technical Communications
- Management Systems for Construction
- BIM for M&E
- Renewable Energy Integration
- Singapore Certified Energy Manager (Associate) (Module 5: Lighting Systems)
- Singapore Certified Energy Manager (Associate) (Module 6: Building Envelope)
- Singapore Certified Energy Manager (Associate) (Module 1: Energy Management & Economics)
- Singapore Certified Energy Manager (Associate) (Module 2: Energy Audit & Measurements)
- Singapore Certified Energy Manager (Associate) (Module 3: Management of ACMV System)
- Singapore Certified Energy Manager (Associate) (Module 4: Motor Driven Systems)
- Elements of Business
- · Instrumentation & Control

Diploma in **GEO-SPATIAL INFORMATION AND TECHNOLOGY** (Part-time)

Geographic Information System (GIS) applications are in great demand nowadays due to many of their value-added services. To generate any recommended solution using GIS applications, there must be accurate data collected by the land surveyors. In addition, the development of many new challenging construction and civil engineering projects also requires a higher level of service from the land surveyors.

The part-time Diploma in Geo-Spatial Information and Technology which was developed in collaboration with Singapore Institute of Surveyors and Valuers (SISV) offers graduates the integrated domain knowledge of various surveying techniques and GIS applications with the use of latest technology and equipment. This diploma creates a unique opportunity for graduates to venture into different aspects of the surveying services. With this, graduates are able to begin or advance their career further in the surveying and geospatial profession.

PROGRAMME OBJECTIVES

This programme has been structured to: (I) Enable Graduates to comprehend the fundamental principles and knowledge in the following domains:

- Land surveying
- · Engineering surveying
- Cadastral surveying
- · Satellite-based surveying
- · Underground surveying
- Hydrographic surveying
- Geographical Information System (GIS)
 (II) Equip Graduates with the domain relevant skills such as:
- Operating surveying equipment
- · Collecting data
- · Applying GIS / GPS software
- Setting out physical sites for engineering works
- Mapping the earth and the sea floor
- Establishing property boundaries
- Analysing data information about land, water and other natural resources for environment & resource management
- Evaluating data obtained to consult clients on optimal alternatives

(III) Equip graduates with necessary problemsolving and management skills such as:

- Effective communication across all levels in an organisation
- Creative and think-out-of-the-box problem-solving skills
- Contract administration and project management skills

(IV) Cultivate graduates with positive attitudes such as:

- Being meticulous in data collection
- Ensuring integrity and accuracy in data

handling

 Being open-minded in upgrading themselves and adopting new technology to enhance productivity

ENTRY REQUIREMENTS

The candidate must be a Singapore Citizen or Permanent Resident or holder of valid employment pass/work permit; and possesses any ONE of the following criteria: a) GCE 'O' LEVEL English (Grade 1 - 7); b) GCE 'O' LEVEL Mathematics (Grade 1 - 6); c) a relevant GCE'O' LEVEL subject (Grade 1 - 6),

Workplace Literacy and Numeracy Level 6, and at least 1 year of relevant working experience.

5 GCE 'N' LEVEL results,

a) English (Grade 1 - 8);

b) Mathematics (Grade 1-7);

c) 3 other subjects (Grade 1-8); and at least 1 year of relevant working experience. OR

ESS Workplace Literacy and Numeracy Level 5; and at least 3 years of relevant working experience.

OR

HIGHER NITEC / ITC OR NITEC / NTC and at least 1 year of relevant working experience.

AWARD OF CERTIFICATE

A participant must attain at least 75% of physical attendance and complete all assignments to acceptable standards to be eligible to take the examination at the end of the course. Students who pass all semester examinations will be awarded a Diploma in Geo-Spatial Information and Technology.

COURSES

- Land Surveying
- Mathematics 1
- Technical Communications
- Engineering Surveying
- Information and Communication Technology
- Surveying Computation and Statistics
- · Satellite-based Surveying
- · Project Management
- CAD for Surveying
- Spatial Data Infrastructure 1

- · Cadastral Surveying
- Principles of Land Administration
- BIM for Surveying
- · Spatial Data Infrastructure 2
- · Underground Surveying
- · Geo-Spatial Information Systems 1
- Special Topics
- · Applied Geo-Spatial Applications
- · Hydrographic Surveying
- Geo-Spatial Information Systems 2

Diploma in **FACILITIES MANAGEMENT** (Part-time)

The Diploma in Facilities Management will equip students with a wide range of technical knowledge and functional skills to manage the built environment. The areas covered in the programme range from principles of facilities management, green building technology, energy management, event planning and marketing to risk management & business continuity. The focus of the programme will be on sustainable practices. Participants of the diploma programme will graduate as competent and confident associate professionals in the built environment industry.

PROGRAMME OBJECTIVES

The programme aims to equip students with the fundamental knowledge and specialised skills necessary to:

- formulate and implement facilities management and maintenance policies to achieve efficient resource utilisation.
- create an environment that meets human physiological needs.
- formulate and implement practices to achieve high level of environmental sustainability.
- plan, manage and market events.
- apply management and financial know-how of business to the industry.

ENTRY REQUIREMENTS

a) GCE'O'LEVEL English (Grade 1 - 7); b) GCE'O'LEVEL Mathematics (Grade 1 - 6);

 c) a relevant GCE'O' LEVEL subject (Grade 1 - 7), and at least 3 years of relevant working experience.
 OR

Workplace Literacy and Numeracy Level 6, and at least 3 years of relevant working experience. OR

HIGHER NITEC / ITC or GCE'N' LEVEL and NITEC/NTC 2 with minimum GPA of 2.75 in relevant disciplines, and at least 1 year relevant working experience.

AWARD OF CERTIFICATE

A participant must attain at least 75% of physical attendance and complete all assignments to acceptable standards to be eligible to take the examination at the end of the course. Students who pass all semester examinations will be awarded a Diploma in Facilities Management and a certificate for successful completion of a course in ISO14001:2004 (Env), and OHSAS 18001:2007 (Health & Safety) and IQA on ISO9001:2008 (Quality).

In addition, graduates will be awarded the following qualifications:

- Certificate of successful completion in Fire Safety Manager course
- Singapore Certified Energy Manager (Associate)

COURSES

- · Building Materials
- Building Technology
- Technical Drawings
- Conservancy Practices
- Mechanical Services
- · Strategic Facilities Management
- Event Planning & Management
- Life Skills A & B
- · Statistics for Management
- · Basic Business Law
- BIM for Architecture
- Information and Communication Technology
- Management Systems for Construction
- Electrical & Communication Services
- Environmental Ergonomics
- Procurement Management Cost Management
- Event Marketing & Customer Service
- ACMV Fundamentals
- · Green Building Technology

- Facilities Management Law
- Elements of Business
- Management Skills A & B
- Data Base Management
 Software Engineering & W.
- Software Engineering & Web Application
- Green Building Operation
- Fire Safety Management
- · Green Mark FM
- Event Service Management
- Risk Management & Business Continuity
- Technical Communications
- Energy Management & Economics
- Energy Audit & Measurements
- Management of ACMVMotor Driven Systems
- Building Envelope
- Lighting Systems
- BIM FM
- Building Regulations

Administration Details and General Information

PART TIME DIPLOMA PROGRAMMES	PROGRAMME FEES (incl GST)	DURATION	COURSE TENTATIVE STARTING DATE
Construction Engineering	S\$13,500.00	3 years - 6 semesters	April 2016
Electrical Engineering & Clean Energy	S\$14,630.00	3.5 years - 7 semesters	April 2016
Facilities Management	S\$12,210.00	3 years - 6 semesters	October 2015
Geo-Spatial Information Technology	S\$18,315.00	3 years - 6 semesters	April 2016

*FREQUENCY: 3 to 4 times a week.

*TIME: 6.30pm to 10.00pm on weekdays. There may also be lessons on Saturdays.

VENUE: BCA Academy, 200 Braddell Road, Singapore 579700.

COURSE DELIVERY: English

APPLICATION CLOSING DATE: 18 September 2015 (for Facilities Management)

* Depends on the programme applied for.

SKILLS DEVELOPMENT FUND (SDF)

Companies who wish to apply for SDF are required to enrol their staff (Singaporean or Singapore Permanent Resident) through WDA's SkillsConnect system @ www.skillsconnect.gov.sg.

Eligible applicant of these programmes will pay the full programme fees and submit their SDF subsidy to WDA directly.

Amounts shown are subject to change from year to year. All fees quoted throughout this prospectus are in Singapore Dollars. They are correct at the time of printing this prospectus. They are inclusive of Goods & Services Tax (GST) of 7% which is the prevailing GST at the time of printing this prospectus.

For enquiries, please call 6248-9999; or email to bca_academy@bca.gov.sg
