

12 – 14 September 2017 | Marina Bay Sands, Singapore

www.bca.gov.sg/events/sgbw

The International Green Building Conference (IGBC), an anchor event of the Singapore Green Building Week (SGBW), brought together over 80 thought leaders, government officials, policy-makers and a notable spectrum of stakeholders – industry, students and end-users from over 50 countries in 2016.

IGBC 2017, themed “**Build Green: Be The Change**”, seeks to catalyse behavioral change at the individual, interpersonal and community levels. IGBC 2017 will continue to provide a platform for the collaborative sharing of ideas among all stakeholders, widen the possibilities and broaden our imagination of having green buildings as a part of the built environment in co-existence with the natural environment.

SISV is proud to be a supporting partner for IGBC 2017, BEX Asia and MCE Asia.

Register for 3-day conference by only S\$800 for booking made before 14 July or S\$900 for booking made after 14 July. [REGISTER HERE >>](#)
