

Certificate Course in Marketing of Industrial Properties

Supported by CEA

(CEA SN: C2L3S0495)

6 Core CPD Credit Hours awarded under Core C2 L3

4th Intake

- Module 1 : Background to Industrial Properties.
- Module 2 : Characteristics & Types of Industrial Properties
- Module 3 : Marketing Industrial Properties
- Module 4 : Transaction Process
- Module 5 : JTC & HDB Policies on Industrial Properties

Course Objectives

This Certificate Course is to equip estate agents/salespersons on the fundamentals in marketing industrial properties in Singapore. Unlike other types of properties, industrial properties have certain unique features and characteristics that estate agents/salespersons should be familiar with.

As JTC and HDB are the largest developers and managers of industrial properties, it is necessary that estate agents/salespersons be informed of the policies and regulations of JTC and HDB with regard to the use and occupation of industrial properties. In addition, estate agents/salespersons should be acquainted with the relevant portions of the guides and regulations introduced by CEA and other relevant authorities that relate to the marketing of industrial properties.

The process, techniques and the various types of marketing activities will be taught in this course to equip estate agents/salespersons with the essential tools to successfully market industrial properties. These skills include both selling and leasing industrial properties.
