

27 January 2022

Dear all PRS/Tech member(s)

It has come to our attention that some Project Resident Surveyors (PRS) may be certifying piling records and other survey documents for authority submissions. SISV Land Survey division would like to remind all technical members that certification to any survey document may contravene the Land Surveyors Act (Link: <https://sso.agc.gov.sg/Act/LSA1991>).

Complaints made to Singapore Institute of Surveyors and Valuers (SISV) may be investigated and the said PRS/Technical member may be subjected to disciplinary actions under the SISV bylaws. Possible disciplinary actions may involve deregistration of one's tech member's membership.

We trust the above is self-explanatory and look forward to you adhering to the prescribed conduct of practices and code of ethics.

Yours sincerely

Lee Teck Kim Christopher  
SISV Land Surveying, Honorary Secretary
